How to do this? Windows 10 Pro v.1709 En-US (64-bit) ACTiVATED-HOBBiT
A: Windows 10 (64-bit) is activated. There is no activation key. My PC is a Windows 7 PC but when I downloaded Windows 10 Pro or Home, it was also downloaded. You can't run Windows 10 Home. The 64-bit/32-bit difference is irrelevant. The Windows user account is from an activation.

Yes, but this means your Windows 10 Home installation came from Windows 10 Home Pro (which has a code required to activate it). I have lost the Windows product key. Can you help me? If you really lost the key, then your last hope is to change your active Windows user account (which you can do from the Control Panel) to a brand new account without any

key. Assessment of genetic diversity of *Synechococcus elongatus* phycocyanin gene using the PCR-RFLP and genotyping methods. Genetic diversity of *Synechococcus elongatus* PCC7942 was assessed by the PCR-RFLP and genotyping methods. *Synechococcus elongatus* PCC7942 was subjected to different variants of restriction digestion to find their recognition patterns. 15 different restriction enzymes were used to digest the PCR products, of which two were restrictively recognized by AluI and NotI and five by BstEII and Sau3AI. Totally 33 restriction sites were detected, of which only 15 digested products were observed. The digestion patterns of 15 sites were used for inter- and intra-species differentiation of *Synechococcus elongatus* PCC7942. A total of 105 patterns were obtained, out of which only 25 different patterns were observed. Five out of the 25 patterns were commonly detected in all of the samples. The polymorphism index for the locus was 0.87. The variability of *Synechococcus elongatus* PCC7942 was found to be high,

based on the two above-mentioned methods. Efficient design of multipulse stimulated Raman adiabatic passage in cold atomic clouds. A new approach to the design of pulsed stimulated Raman adiabatic passage (SPRAP) in cold atomic clouds is presented. Instead of the simultaneous driving of the electronic and rotational states of the ground vibrational
